PROFESSIONAL HISTORY:

1995-PRESENT

President / The Diehl Group Architects, Inc.
Encinitas, California

Responsible for the field investigation, failure analysis, building code research, development of repair solutions and trial preparation for construction defect litigation on over two hundred projects (200) as well as construction administration and quality control involving Type I and Type V building types. Investigations require technical investigation and research regarding suspected design and building problems through the verification and comparison of actual built conditions design parameters, governmental requirements and applicable industry standards of care. Duties include the establishment and coordination of expert teams of industry consultants. Quality assurance consists of evaluation and supervision of in-progress construction projects for conformance to design, material and workmanship standards on major commercial and high rise structures.

1993-1994

Project Manager/Architect, Architechnology

Cardiff by the Sea, California

Responsible for the investigation, analysis and trial preparation for construction defect litigation and quality control involving Type I and Type V building types. Activities included testimony in construction defect and personal injury cases involving demands of thirty six million dollars.

1991-1993

Managing Architect, Klock Planning Architecture

San Diego, California

Responsible for the investigation, analysis and trial preparation for construction defect litigation and quality control involving Type I and Type V building types. Administratively directed master scheduling and personnel recruitment for a 13 person architectural firm.

1986-1991

Principal & Owner, The Diehl Group Architecture

San Diego, California and Denver, Colorado

Principal and responsible for a small full service architectural firm involved in the planning, design, agency coordination, construction documents, specifications, computer aided drafting systems, (Autocad), and construction administration and supervision of retail, education, recreation, medical, and residential building types. Administrative duties involved company financial management, business development, personnel and general firm management.

1985-1986

Principal, Michael Gaviglio & Associates, P.C.

Denver, Colorado

Principal in a medium sized architectural firm specializing in the design, coordination, construction drawings, specifications, and construction administration of commercial, food service, recreation, medical, retail and residential building types.

1978-1985

Principal, Duff/Reck Architects, P.C.

Westminster (Denver), Colorado

Principal for a full-service architectural firm. Responsible for total project management including the planning, design, agency coordination, specifications, construction documents, computer aided drafting and construction administration of Type I and V commercial, religious, banks, recreation, medical, DOD, retail and residential building types.

1974-1978

Job Captain, Marvin E. Knedler & Associates, P.C.

Denver, Colorado

Preparation of construction documents, specifications and site observation duties for a 21 person architectural firm specializing in financial institutions and office buildings.

1972-1974

Design Coordinator, The John Madden Company

Denver, Colorado

Designer and construction supervisor for interior tenant improvement for a major office building developer.

CORRELATIVE EXPERIENCE:

United States Army, Military occupational specialty: Construction Supervisor and Welder involved in wood frame and masonry buildings and civil works including roads, paving and site improvement projects.
